## GT890 Android based IP Videophones (ITX-3370-1(BK)TEL)

The GT890 is a powerful desktop video phone for small business and enterprise users. It features:

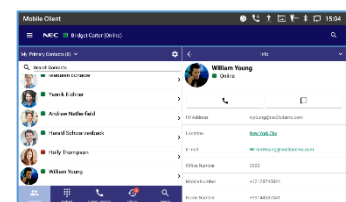

- 7" touch screen
- Advanced mega pixel camera for HD video conferencing
- Built-in Wi-Fi and Bluetooth
- Gigabit network speed
- Innovative telephony functionalities
- Three modes of operation:
  - ST500 Client for SV9100, SV9300 & SV9500
  - GT890 Native Dialler for 3C and SIP@Net
  - User Centric; i.e. apply the UNIVERGE 3C Mobile Client (without the Soft Media Phone)
- Ability to run NEC's Front Desk Assistant for visitor/employee check-in
- Runs on Android 7.0 and has flexible SDK support for custom applications
