UNIVERGE SV9100 CP20 Demo Licence Package

In January 2019 we announced in Dear Associate [2019-004](#) the addition of SV9100 to the Support and Upgrade policy of Demo, Test & Training Systems

We have now added the UNIVERGE SV9100 CP20 to the policy. See all covered products in Appendix.

Demo Licence Package

The licence pack will allow you to demonstrate many of the SV9100 functions. The licence pack allows flexible demonstration scenarios and does not require you to a purchase specific hardware set up.

The hardware is purchased separately according to you required needs.

Pricing aspects & Items

The Licence pack has an order code of:

Product code	Items	Description
EU901005	SV9100 CP20 Demo Licence Pack	Licence Pack offering a number of features for demonstration or test purposes.

The licence pack can be requested Free of Charge on the [Demo/Test licence request page](#).

Hardware needs to be purchased separately. The Prophix non-configured area is recommended.

Please contact your Channel Manager for further details.

Availability & Order Information

The SV9100 CP20 Demo licence is available now via the licence request page:

[Demo/Test licence request page](#)

One licence pack per partner is allowed.

With the introduction of the SV9100 CP20 Demo licence, the SV9100 CP10 will become superseded and therefore no longer available with immediate effect.

UNIVERGE SV9100 CP20 Demo Licence Package
