### 2020-002 | January 16

## DT900 Touch Screen and Portal Mode User Interface

The DT900 phones offer a fresh, modern design to the NEC multiline telephone range and include an enhanced range of wideband, gigabit supported IP phones. These IP Multiline telephones are enhanced further with the addition of a new touch screen telephone for UNIVERGE SV9000 Communication platforms.

Launched to coincide with the release of the new touch screen telephone, a new portal mode user interface has also been added, via a free software upgrade, to the Self-Labeling and colour display DT900 telephones giving the telephones a fresh update.

## DT900 Portal Mode Telephones

8 button colour self-labelling telephone
