

PORTFOLIO BULLETIN

2020-026 | March 31

Extended Migration program to UNIVERGE SV9500 / SV9300

NEC recognizes the investment that your customers have made and we realize that while the End of Life phase for the SV8500 and SV8300 have come, migrations do not always fit with our schedules or budget. This is why NEC extends our Migration program with System discounts to SV9500 and SV9300, as offered in Portfolio updates No. [2019-034](#) and [2019-035](#), up to **March 31, 2021**.

With this extension, NEC encourages customers with existing SV8500/SV7000/NEAX2400 IPX and SV8300 systems to continue planning to migrate to SV9500 or SV9300 systems as soon as practical, in order to protect their investments and their business operations, and benefit from rich enhancements offered by our latest SV9500/SV9300 offerings.

When migrating to a new UNIVERGE SV9500 or SV9300 platform, this program offers:

- An extra Discount of 10% on your new system
- A Discount of 100% on your NEC IP phone licences (up to the amount active on the current system)
- Optimal re-use of NEC applications and IP phones
- All remaining SoftWare Assurance units will be transferred from your existing system to SV9500/SV9300 (SWA mandatory for a minimum of one year)

Please refer to Portfolio updates No. [2019-034](#) and [2019-035](#), and [Migration to SV9500/SV9300 programme site](#) for more details on the migration discount conditions and assisting documents.

Availability & Order Information

This migration promotion is now valid from August 16, 2019, until March 31, 2021.

The offer is applicable to all SV9500 system migrations from SV8500, SV7000 or NEAX2400 IPX, or all SV8300 to SV9300 system migrations. The new system must be shipped before March 31, 2021 in order to take advantage of this discount program.

Extended End of Delivery date for certain SV8500 hardware components listed in the Annex of [2019-035](#) will remain the same, until **September 30, 2020**.

A new system should be configured in Prophix and submitted via Financial RAP, in order to receive approvals for the applicable discounts. Customer Transition Program in the BusinessNet Customer Base is in preparation and will replace the Financial RAP process in a near future. Further announcement will be made upon its availability.
