

PORTFOLIO BULLETIN

2020-062 | December 04

PoE Adapter Replacement

This Portfolio Bulletin informs you about the replacement of the PoE adapter used on both the DeCT portfolio and terminals portfolio with immediate effect upon depletion of existing stock.

The items affected are:

Part Number	Part Name	Superseded by	Part Name
POE15M-1AF	POE Adapter Single Port 1Gb	POE15M-1AFE	POE Adapter Single Port 1Gb

Whilst the physical size and appearance of the PoE adapters are the same, and is a direct replacement for the predecessor, the replacement item is enhanced with the addition of shielded ports.

Pricing aspects & Items

It is intended that the price of the replacement adapter should maintain the price of its predecessor however, for pricing details on the superseding adapter terminal, please contact your NEC Sales representative.

Availability & Order Information

The new PoE adapter is available on general release with immediate effect upon depletion of existing stock.
