

SALES & MARKETING BULLETIN

NEC

DL38483135 MARCH 1

SL2100 Matt Finish to Chassis

This Bulletin informs you of a cosmetic enhancement to the finish of the SL2100 chassis unit. The front panel will now be in a matt finish. This is to provide a uniform finish to the whole chassis. There is no change to the part code, this will remain at BE116494

The current chassis unit has a gloss front panel around the CPU and four universal slots.

Current chassis with
Gloss front panel

The new chassis unit has a matt front panel in the same finish as the other panels of the chassis.

Matt front panel

Pricing aspects & Items

There are no price changes.

Product code	Items	Description
BE116494	IP7WW-4KSU-C1 w/o C	SL2100 Main/Expansion chassis

Pricing can be obtained from your NEC representative/Channel Manager or Prophix/Studio/platform

Documentation

There are no changes to the documentation.

Availability & Order Information

The new matt finish will become available from March 2021.

NEC will ship the new matt chassis units as they become available in our warehouse and will not identify or separate the matt or gloss chassis units in any deliveries.

To allow you to identify the finish the LOT number on the outer box will be changed.

Product code	Items	Front panel finish	LOT number
