

# SALES & MARKETING BULLETIN

DL40116983 APRIL 30

## Release Overview EMEA April 2021

Product	October-December	Jan-March	April	May	June	Jul-Sept
3C Solutions						
3C Unified Communications Manager			<u>v10.0.0</u>			
3C UC Client			<u>v10.0.0</u>			
3C Mobile Client iOS			v10.0			
3C Mobile Client Android				v10.0		
Business ConneCT solutions						
Business ConneCT			<u>V12</u>			
Platforms						
SIP@Net		6.7.1				6.7.2
SL2100	3	3.1				
SV9100			<u>11</u>			
SV9300	<u>V8</u>					
SV9500				<u>V8</u>		
Applications						
BX-series SBC / GW		7.2.258				
InDECT	<u>1.4</u>			<u>1.5</u>		
IP DECT	<u>6.8</u>				<u>R6.8.1</u>	
MA4000 System Management		16.0.9				
MA4000 Expense Management		11.x				
MobiBox				V11		
MobiCall		<u>V11</u>				
uMobility						
MyCalls for SV9100						
MyCalls for SV9500						Target V5.3
MyCalls for 3C		V5.3				
NMC	<u>v9.1</u>				<u>v9.2</u>	<u>v10.0</u>
OVOC		7.8.2000				
UNIVERGE Integration Platform						

UProduct	October-December	Jan-March	April	May	June	Jul-Sept
Applications						
SMB / InApp's for SV9100 and SL2100	InHotel v1.9			InFIAS 1.9		
	InReports v1.9					
	InFIAS v1.8					
Data Storage & Protection						
HYDRAsstor HS x.50s		SW Update	SW Update			SW Update
IT for UC						
ExpressCluster						
Hyper Converged Infrastructure						
Masterscope Network Manager						
Masterscope NFA						
NIAS		4.2				
NOE		<u>V1.3</u> <u>V1.4</u>				<u>V2.0</u>
QX Switches	QX-S1100		FiberStore SFPs & cables	QX-S5100 family		QX-S4800 family

The **underlined** releases are considered as major releases in the SWA-program. General information about the content of the coming product releases is based on the current roadmap plans, both content and release dates are subject to changes without prior notice.

## 3C Solutions

### UNIVERGE 3C v10.0.0

[Please refer to the Sales And Marketing Bulletin DL39381537-SAMB-3C-v10.0.0.](#)

### UNIVERGE 3C Clients v10.0

## BusinessConnect

### BusinessConnect V11.1

- Compliance recording for 3C and SV9100
- Support OAuth 2.0 for G-Suite authentication
- Microsoft Dynamics integration
- 1<sup>st</sup> phase NMC integration (projects)
- Line as new social media service (Japanese/Asia market) added

### BusinessConnect V12

- Support of emergency calls (notification/reporting)
- Support of failed wake ups (notification /reporting)
- Adding new channels like iMessage (Apple) and SMS
- Smart routing using UIP for webchat and social media
- Suspend call-back
- OATH2 support for Microsoft 365 Calendar and Mail services
- Support 3C open numbering plan
- Agent App enhancements (option to selective log in/out in groups)
- Block last agent logout
- Expanding XML support in DT9xx series and add secure XML

## Platforms

### **SIP@Net 6.7.1.**

- Corrective maintenance
- SIP-Driver 2.0.16 also supporting SHA2 encrypted TLS certificates
- DTxxx Std-SIP already support either SHA1 or SHA2 encrypted TLS certificates, depending on the presence/support of an ST500 v6.2 or more recent version of this Softphone.
- Softphone Support
- ST500 v6.2 or later; TLS with SHA2 encrypted certificates only!
- For iOS and Android: both internal and external SHA2 encrypted TLS certificates
- BRIA Enterprise as "follow up" phone for the BRIA5 in SIP@Net/BCT installations

### **SIP@Net 6.7.2**

- Corrective maintenance
- Security enhancements Media-Server, ISG and PMC-IP/IPG: the latest OpenSSL version

### **SL2100 R3.1**

- Security Enhancements
- Increase secure InApp connections
- InAlert Support

### **SV9100 R11**

- IRG Pilot Transfer – transfer to a pilot group via service code
- Security Enhancements
- Increase secure InApp connections
- InAlert Support
- Hebrew voice prompts added

### **SV9500 V8**

- Subline Pick-up for ST500
- UCD Group Name Display
- SIP Trunk enhancement
- Security enhancement

## Applications

### **BX-series SBC / GW**

- OpenSSL 1.1.1g, TLS v1.3 support
- Additional user activity logging
- SBC feature enhancement including SIP recording, MS Teams Direct Routing and WebRTC gateway SBC interoperability feature enhancements

### **InDECT 1.5**

- Supports InAlert
- Forced Restore; remove all subscriptions and re-load subscriptions from same or from other system

### **InFIAS v1.9.0**

- Guestline connection support

### **InGuard v1.8.0**

- 8 Digit SMDR Support
- https support

### **IP DECT R6.8.1:**

- ISIP multi line features
- 802.1X adaptation – extended RADIUS support

### **MA4000 System Management 16.0.9**

- SQL Server 2019 compatibility
- DT920S & DT930S extension management and SIP provisioning
- Support DT500 (DTK) phone models for SV9500 and SV9300

### **MA4000 Expense Management 11.x**

- SQL Server 2019 compatibility

### **MobiBox V11**

- Expanded Web based Management
- New Mobile App
- NEC Location gateway support via expanded DMLS commands
- Extended functionality for BLE Location Solutions
- New Interfaces & System Integrations

### **MobiCall V11**

- New Mobile App
- Enhanced tenant functionality (for Private Cloud)
- WAGO PFC200 support for watchdog and remote sites
- Extended functionality for BLE Location Solutions

### **MyCalls v5.3**

- Call Playback using a Web Browser
- Active Call Recording using the BX SBC
- Internal Call Recording
- LMC Licensing
- SWA

### **NMC v9.2**

- Localization : single country, single language per NMC system. Configurable by the System Administrator. First language: German.
- NMC Outlook plug-in for scheduling Web or Audio Conferences

### **NMC v10.0**

- Localization : multiple countries, multiple languages per NMC system. Configurable by the System Administrator as well as by the End Users.
- Redesign End User Interfaces from Web Conference Room and Moderator Portal
- NMC pre-installed SVR3 Server Blade for SV9000 series

### **OVOC (One Voice Operation Center) V7.8**

- Enhanced user interface
- VQM reporting enhancement

## **Data Storage & Protection**

### **HYDRAsTOR software updates**

- Adding Virtual Tape Library functionality to HYDRAsTOR.
- Software enhancements

## IT for UC

### NIAS 4.2

Improvements in terms of:

- Visualisation
- Organisation / Capacity reduction
- Access Right setting
- Resource Management
- Data migration

### QX Switches new models

- The QX-S5100 series switches are successor models to the QX-S5200 (same feature set, meet latest regulatory compliance requirements).
- The QX-S4800 series switches provide L3 support at an attractive price, and also multispeed ports (1/2.5/5/10 Gbps)

### Network Operation Engine (NOE)

The Network Operation Engine is the successor of PFC and provides:

- Network automation and virtualization managed through an easy-to-use management interface.
- Drag-and-drop network configuration
- High-availability resulting in a secure, flexible and centrally configurable Enterprise Campus Network.
- multiple virtual networks (using a single common physical network) for each category of devices can be created
- Optimal configuration and isolation for each virtual network can also be created.
- Devices can be easily added/migrated throughout the virtual network from a central management interface without requiring changes in the physical network
