Announcing phase out of windows–based Prophix CPQ

Dear Valued Business Partner,

As you are aware, NEC Enterprise Solutions EMEA has successfully introduced **Prophix CPQ** as successor to our 'old' windows-based Prophix for the ordering and configuration process in the recent months.

This new version of Prophix is fully web-based and can be used on mobile devices as well. We have received very positive feedback from many of our Business Partners and trust you are appreciating the enhancements the new tooling brings as well.
So now, after more than 20 years of service, the 'old' windows-based Prophix has reached its' retirement.
As from Monday, October 4th 2021, this 'old' Prophix can therefore no longer be used for creating configurations and placing orders towards the NEC Enterprise Solutions EMEA Order Desks in Hilversum (NL) and Nottingham (UK).

Please note that conversion of project files from the 'old' Prophix to the new **Prophix CPQ** is supported: At the BizApps home page there is an App called "BizApps Info", in the CPQ section there are FAQs, which you can find via the following link:
URL directly to the FAQ:
https://apps.nec-enterprise.com/nec1d/f?p=210:2:11789793591::::G_APP_CG:05DCD0F8ECB44D16B8A337780F761F10

In case you still need authorization to use the new Prophix CPQ, please contact your NEC sales representative.
For any other support you would need regarding Prophix CPQ, please consult our Sales Support (CaSS) team, or register a call via Call Registration in BusinessNet.

Thank you very much for your understanding.

Arjan Dekker
Director Customer Operations
NEC Enterprise Solutions EMEA
