NEC Meeting Center (NMC) release v9.3.

NEC Meeting Center (NMC) provides a comprehensive suite of applications for on-premises deployment. The NMC includes, sophisticated audio conferencing, web collaboration, predefined dial-out conferencing and mass notification for NEC's communications platforms.

The latest NEC Meeting Center software release v9.3 supports, next to the already available English and German languages: Dutch, French, Italian, Spanish and Chinese.
Furthermore release v9.3 includes various security and bug fixes.

Localization
With release v9.3 the languages Dutch, French, Italian, Spanish and Chinese have been added to the NEC Meeting Center. Details are depicted in Table 1 (NMC Language support) below. The language selection in NMC release v9.3 is a system wide setting that is set by the System Administrator.
The next NMC release (v10.0) will allow end-users to select their own preferred language individually when joining an NMC Conference Room.

Language	Country	Application User Interface	Audio Prompts	Online Help
Dutch	The Netherlands	√	√	-[1]
English	US	√	√	√
French	France	√	√	-[1]
German	Germany	√	√	√
Italian	Italy	√	√	-[1]
Spanish	Hispanic America	√	√	-[1]
Chinese Traditional	Taiwan	√	√	-[1]

√ : release v9.3 and later
√ : release v9.2 and later

---

[1] Online Help is offered in the English language

Miscellaneous

The next modifications have been implemented to limit the risk of security breaches:

1. Removed version numbers from the NMC login screen, the Server-Header and User-Agent-Header.
2. Mitigate PwnKit (CVE-2021-4034) vulnerability (forcing Unix update which every upgrade)
3. Added Security headers
4. Upgraded the nginx web server to version 1.20.2

For details please refer to the accompanying Release Notes (FCO) on NEC's BusinessNet partner portal.

Documentation

All NMC documentation resides on the NMC Product Page on NEC's BusinessNet portal.

Training & Webinars

The NMC Training Track is depicted below. The NMC training modules are available as Computer Based Training (CBT) modules[2]. The NMC Training Track is offered via the Training Center page on NEC's BusinessNet Portal.

Availability & Order Information
