DL52178881 DECEMBER 19

NEC

Phase-out announcement: APR-L UNIT (analogue port adapter with ringing)

NEC would like to inform you about the phasing out of the following DT terminals adapter.

Pricing aspects & Items

The following items are to be phased out.

Product code	Description	EON	EOD	EOS
BE106871	APR-LP UNIT	31/03/2023	31/03/2023	31/02/2024

EON - End of new deliveries.	The product and product related sales articles cannot be ordered anymore for new system sales. However, current systems can still be upgraded with new software and expanded with additional hardware and licenses during the EON period. Platforms only: The phased-out platform can in this timeframe also be added as new nodes to an existing cluster which comprises any of these servers. Delivery time may take longer than usual (up to 4 months).
EOD - End of deliveries.	The product and product related sales items cannot be delivered any more.
EOS - End of Support.	Technical support is available at a reduced level. Support Incidents are only accepted based on the last (final) Maintenance Release. Previous bug-fixing software updates are still available however new bug-fixes are no longer provided. Spare parts can still be obtained, and repairs services are available.

Availability & Order Information

Although the products will be available whilst stocks last, last time buy requirements, particularly larger orders, should be received by 31/01/2023 in order to ensure stock is available from manufacturing. Please consider that due to stock levels orders may be subject to lead times of 3-4 months.

The status of the APR-L UNIT will change to EON (End of New Deliveries) either on the 31st March 2023 or when the stock levels held in EMEA are depleted whichever is sooner.
